an informa business

FROM DRAFT TO PUBLISHED

Author Workflow & Journal Acceptance

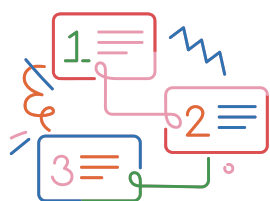

Join us for an insightful webinar specially tailored for authors affiliated with participating institutions that have an Open Access agreement with Taylor & Francis. Discover key strategies for submitting, publishing, and promoting your work, along with tools and resources to streamline your publishing experience.

Session Highlights

Understanding and Improving Journal Acceptance Rates

Victoria Babbit, Director of Research Development & Outreach, will guide participants through the factors that influence journal acceptance rates, providing actionable insights and practical strategies to enhance the chances of publication success.

Taylor & Francis Author Workflow

Corresponding authors affiliated with participating institutions of our Open Access agreements are encouraged to choose open access publishing via the agreement. This session will provide an overview of the author workflow for authors *who opt to publish open access in our suite of Open Select journal titles*, shared by *Ko Konno, Open Research Specialist*.
